Jim and Betsy,  
HQ is going to be handling all AL controls that come in regarding the Gold King Mine Site. I have asked if they are doing the same with AX controls. I know that we have received some assigned to us through CMS already, and I know that we are creating some Region 8 AX controls, but for now, let's put this on pause until I can work with HQ on a plan for handling these letters in a consistent manner.

Thanks,  
Rebecca

We are going to control the letters to HQ. So don't worry about them for the moment.
